PROFESSIONAL SUMMARY

Risk, governance, and controls professional with 12+ years in risk assessment, internal audit, and compliance, most of it in financial services (Experian, Truist, Wells Fargo, Santander, BankUnited, Banco de Reservas). Plans and runs risk and control assessments across business processes, technology, information security, compliance, and operations, then turns findings into owned remediation plans with target dates and follows them through to verified closure. Hands-on with SOC 2 and PCI DSS assessments, policy and control framework mapping, evidence collection, and BCP/DR. Now works as a virtual CISO for small and mid-sized organizations, wearing multiple hats from strategy to day-to-day execution, fully remote. Asks hard questions while keeping working relationships productive. Holds CRISC, CISA, CISM, and CDPSE.
