EDWARD MORFA

Application & Platform Security Architect | Secure SDLC, Identity, Cloud & Cryptography

Hollywood, FL • 480-227-4994 • edwardfive@gmail.com • **CISM | CISA | CRISC | CDPSE**

PROFESSIONAL SUMMARY

Security architect with nearly 20 years across application development, network and platform security, and IT risk. Started as a Java/Spring Boot developer, network administrator, and security engineer, then spent 12+ years reviewing application, identity, cloud, and infrastructure designs and the controls around them, including SOX and HIPAA ITGCs, for organizations including Experian, Truist, Wells Fargo, Banner Health, and Allergan (now AbbVie). Brings secure SDLC, identity security (least privilege, separation of duties, privileged access), cryptography (AES-256, TLS 1.2/1.3, IPsec, certificates and PKI), penetration testing, and AWS and Azure security together to define practical, risk-based controls. Now sets security strategy and architecture direction for client organizations as a virtual CISO, explaining security trade-offs to business and IT stakeholders. Holds CISM, CISA, CRISC, and CDPSE; passed the AWS Certified Security – Specialty exam.

CORE COMPETENCIES

Application Security: Secure SDLC, security requirements and design reviews for development and acquisition projects, secure configuration, application controls (input, processing, output), penetration testing and application vulnerability testing, threat and risk identification, remediation

Identity & Cryptography: Identity security and governance (SailPoint, Saviynt, Entra ID), least privilege, separation of duties, privileged access, Zero Trust principles, encryption at rest and in transit (AES-256, TLS 1.2/1.3, IPsec), certificates and PKI

Cloud & Platform: AWS, Azure, network security (firewalls, IDS/IPS, SIEM), Windows and Unix/Linux, vulnerability management, incident management, BCP/DR

Development: Java, Spring Boot, MySQL/SQL, Python, PowerShell, automation of security and control testing

Frameworks & Compliance: NIST CSF, NIST 800-53, ISO 27001, Zero Trust, SOX ITGC, HIPAA, HITRUST, FedRAMP, FISMA, SOC 2, PCI DSS, GDPR

WORK EXPERIENCE

Director of IT, Cybersecurity, Audit & Risk (Virtual CISO)
Dec 2024 – Present

tjss.us | *Miami, FL*

- **Serve as virtual CISO for client organizations:** define security strategy, policies, standards, and architecture direction, and present risks and security investments to business and IT leadership.
- Review client application, cloud, identity, and network designs, identify security risks, and define controls and remediation ranked by exposure, business impact, and compliance obligations.
- Oversee managed security services and service providers covering threat detection, continuous monitoring, incident response, and penetration testing.
- Map client controls to NIST, ISO 27001, SOC 2, HIPAA, GDPR, and SOX, track gaps through remediation, and write business continuity and disaster recovery plans.
- Evaluate and recommend security technologies and vendors, and build security culture through awareness training for client staff.

IT Audit & Project Manager
Aug 2024 – Dec 2024

Experian (via TalentBurst) | *Miami, FL*

- **Assessed security and ITGC controls for Experian internal audit:** built five risk and control matrices and led 15+ ITGC walkthroughs, improving audit planning efficiency by 35% and reaching 90% risk coverage.
- Tested 100+ controls for design and operating effectiveness, identified 30+ gaps, and worked with control owners on remediation, supporting a 40% improvement in compliance.
- **Evaluated identity security and change controls across SailPoint, Saviynt, ServiceNow, and Azure AD:** provisioning, deprovisioning, access reviews, least privilege, and change approvals.

Senior IT Security Audit Project Specialist
Sep 2023 – Jul 2024

Truist Bank (via RGP) | *Miami, FL*

- Identified and assessed 30+ information and network security risks at a large U.S. bank and turned them into practical remediation plans that technology owners could prioritize.

- Worked with 10+ technology and security stakeholders to review incident response and resilience and evaluate security control effectiveness.

Cybersecurity & IT Risk Consultant **Dec 2018 – Aug 2023**
Apex Systems | *Multiple U.S. locations*

Security architecture, risk, and compliance engagements for banking, technology, healthcare, and logistics clients.

- **Santander, Wells Fargo, BankUnited:** Led 50+ technology and third-party vendor risk assessments for banking clients, including SOC 2 control reviews.
- **Deutsche Post DHL, VMware:** Ran 30+ SAP, network security, and open-source compliance audits; wrote Python scripts to automate control testing and analyze data, cutting manual effort by 40%.
- **Eide Bailly:** Performed 20+ penetration tests and supported HIPAA, HITRUST, SOC 2, FedRAMP, and FISMA assessments.
- **Banner Health:** Designed security and IT governance controls for HIPAA and PCI DSS in a healthcare system.

Internal Auditor II **Jul 2017 – Nov 2018**
Allergan (now AbbVie) | *Madison, NJ*

- Advised on security requirements and controls for IT acquisition and development projects, reviewing SDLC and agile practices for 12 applications and change management on three platforms.
- Reviewed encryption, data classification, backup and recovery, data centers, and incident response, and SOX ITGCs; tested access for 5,000+ users and 2,000+ devices.

IT Audit & Project Manager **Jun 2012 – Jul 2017**
Banco de Reservas | *Santo Domingo, DR*

- Led IT audit and project teams at a national bank using NIST, COBIT, and COSO; identified 80+ critical security vulnerabilities and drove them through remediation.
- Directed IT governance, audit methodology, and control improvements that cut compliance gaps by 40% and made audit cycles 30% more efficient.
- Reviewed network and data protection architecture (AES-256, TLS 1.2/1.3, IPsec, certificates, encryption at rest) and DR/BCP design for 20+ critical systems.

Software Developer, Network Administrator & Security Engineer **May 2006 – Jun 2012**
Banco de Reservas | *Santo Domingo, DR*

- Designed and built a Java/Spring Boot web application on MySQL, and automated operations with Python and PowerShell.
- Managed firewalls, IDS/IPS, SIEM, and Windows/Linux security; handled incident investigations and forensics, vulnerability remediation, and patching.

EDUCATION

Master of Science, Network and Systems Administration **2016**
Rochester Institute of Technology

Bachelor of Science, Computer Science **2012**
Caribbean University

CERTIFICATIONS

Certified Information Security Manager (CISM) – ISACA **2025**
Certified Information Systems Auditor (CISA) – ISACA **2025**
Certified in Risk and Information Systems Control (CRISC) – ISACA **2026**
Certified Data Privacy Solutions Engineer (CDPSE) – ISACA **2026**
COBIT 5 for IT Governance – ISACA **2014**
ITIL Foundation – AXELOS **2016**
Also: AWS Certified Security – Specialty (exam passed); Azure AZ-500 in progress
